

Cortegra's Folding Cartons Offer Complete Range of Security Features

Provide cost-effective anti-counterfeiting and brand protection measures

FAIRFIELD, NJ – Cortegra, a dedicated partner for pharmaceutical printing, manufactures folding cartons for pharmaceutical products of virtually any size, available with a complete range of the company's RxTrackNSecure™ protective product line that make use of the latest technology in anti-diversion, anti-counterfeiting and anti-fraud printing methods.

The RxTrackNSecure™ products provide durable, easy-to-apply, and relatively affordable ways to guard against pharmaceutical product fraud and maintain consumer confidence and safety. These products include pressure sensitive labels with 100% readable RFID tags, holography, taggants, serialization, color shift, security printing, tamper evident materials and substrates.

Following strict cGMP guidelines and operating procedures to offer flawless printing in up to six colors including inline aqueous coatings, Cortegra folding cartons are printed via the thermal computer-to-plate method to provide sharper resolution, speed production and reduce costs by eliminating the film processing and stripping steps. In addition to quick response on everything from prototypes to proofs, Cortegra folding carton options include:

- Accent metallic coating
- Precision die cutting
- Aqueous and UV coating
- MAGIClear™ dry erase coating
- Scoring and folding
- Foil stamping
- Embossing
- Stitching, collating and gluing

- Flexo with in-line die cutting

A subsidiary of Menasha Corporation, Cortegra has the ability to bring single-source excellence to pharmaceutical packaging materials. With more than three decades of printing experience solely for the pharmaceutical industry, the company has become one of the recognized leaders in providing packaging and labeling services to the industry. In addition to folding cartons, Cortegra products include inserts and outserts, labels, flexible packaging, saddle-stitched booklets, foil pouches and lidding materials.

Cortegra is headquartered in Fairfield, NJ, with multiple facilities covering 3 states including locations in Evansville, Indiana and Raleigh, North Carolina. For more information, contact Cortegra by phone at (973) 808-8000, by fax at (973) 808-8010, or by visiting www.cortegra.com
