

## **Cortegra Responds to Market Demand with New Wide Format Folding Capabilities for Inserts and Outserts**

**FAIRFIELD, NJ** – Cortegra, a dedicated partner for printed pharmaceutical packaging solutions, recently made a major investment in new, state-of-the-art technologies to fulfill the market's growing demand for wide-format folding inserts and outserts.

In response to the industry's expanding use of larger printed material and recent FDA regulations on labeling, Cortegra has increased its wide-format folding capabilities for inserts and outserts. Some of those new capabilities include:

- Folding capacity of up to 130 fold panels
- Accurate folding with the use of an electronic water score system
- Enhanced uniformity and flatness through pressing units
- Consistent folding with servo driven two-knife folding stations
- Clean presentation through the use of non-contact glue systems
- Full bar code scanning available for all inserts and outserts
- Fast turnaround schedules through high-speed folding facilities

A subsidiary of Menasha Corporation, Cortegra, has the ability to bring single-source excellence to pharmaceutical packaging materials. With more than three decades of printing experience solely for the pharmaceutical industry, the company has become one of the recognized leaders in providing packaging and labeling services to the industry. In addition to anti-counterfeiting solutions, Cortegra products include inserts and outserts, labels, flexible packaging and folding cartons. For more information, contact Cortegra by phone at (973) 808-8000, by fax at (973)808-8010, or by visiting [www.cortegra.com](http://www.cortegra.com).
